

ИНДИВИДУАЛЬНЫЕ КАРТЫ ЗАДАНИЙ

Тема: изучение правил нанесения размеров на чертежах — ГОСТ 2.307-68.

Задание:

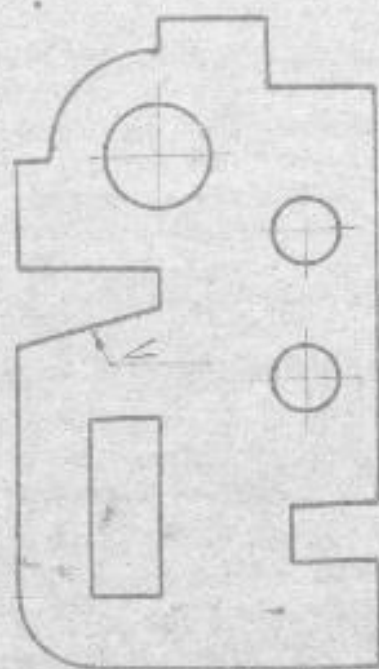

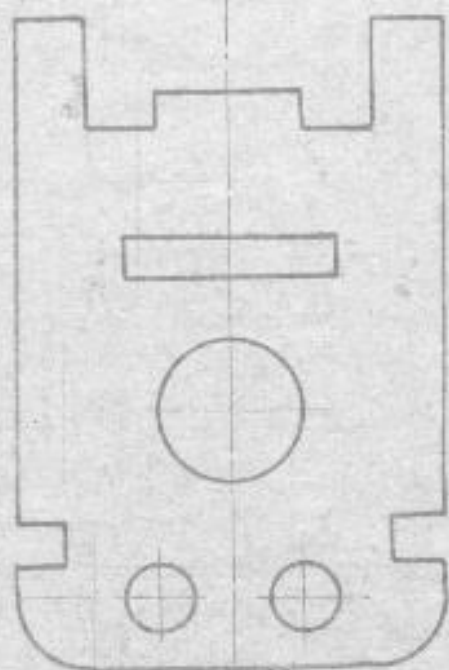

- ✧ выбрать масштаб данного текстового документа равный 100%;
- ✧ на бумаге вручную выполнить эскизы плоских контуров по варианту;
- ✧ с экрана линейкой снять необходимые размеры, округляя их до значений, кратных 5 и 10 мм;
- ✧ по снятым с эскиза размерам выполнить чертежи в КОМПАС в масштабе 1:1 на формата А3;
- ✧ симметричный контур разместить в левой части формата;
- ✧ несимметричный контур разместить в правой части формата над основной надписью;
- ✧ используя ГОСТ 2.307-68 нанести необходимые размеры.

Проверка задания преподавателем: выполненное задание будет зачтено при условии нанесения всех необходимых размеров в полном соответствии с требованиями ГОСТ 2.307-68.

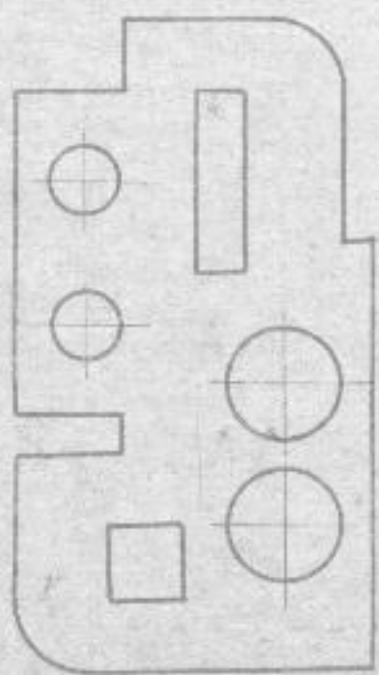

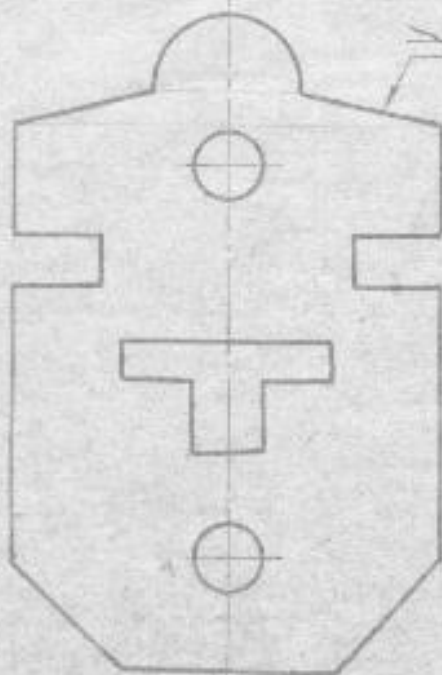

Факт нанесения на чертеж неправильно хоть одного размера, будет комментироваться одной фразой: **«нарушен ГОСТ»**.

Другие возможные комментарии: *«не все размеры»*, *«лишние размеры»*, и т.п.
